Dn. Revore: -My wife has been affileded with a bad cough and difficulty of breathing, for five or six years, which, for several years back. Ind gradually increased in violence. The complaint has been hereditary, and she had been treated by everal physicians without any relef. In this state of her case, I produced some of your Pectoral Cough Syrup. I bought, the first-time, a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cared her cutlively, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

Dn. Karsun:—Although not an advocate of Patent Medicines, in general, it affords me pleasure indescribehie to recommend your Pectoral Syrup. As a medicine
it is well worthy the attention of any person who may in
any manner be suiteted with cought, colds and hoarsoners
of any linds and for the predistry qualifications for removing all that disagreeable sensation attending a ac-

a whisper, and by taking a lew docer of the noise signal it would relieve me entirely.

In recommending this medicine, I must unhesitatingly may that it is the best remedy I ever found, purporting to care the above, nor should any family be without this remedy for discuss no prevalent.

COL. PRATT AND DR. KEYSER'S PECTORAL SYRUP.—DR. KEYSER—Bear Sir. Excuse the delay of my acknowledging the excellence of your Pectoral Cough Syrup sooner. I take great pleasure in saying that it is all you say it in. If knocked the noise out of my cough and the worst one I was ever afflicted with I have not usel more than one-half of the botile, and I can and do wish that all who are afflicted would give itss fair a trial as I have done, and they will be proud to say, "It is no quack medicine." I would not suffer another such as attack for any consideration, or at any cost. I am condense I can break more freely than I ever did. A WONDERFEL CURE — Some time ago, an old neighbor of mine was very ill; with a red cough which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without banefit; his brottler came to see him die, and all were confirmed in the follef that he condimat live. I had about the third of a bottle of your Pectral Syrup, which I gave him, and it entirely cured him, to the astoniahment of all. What makes the case more remarkable, is the extreme age of the man, he being about highly years old. I have no deabt the Pattoral saved his life.

DR. HEYSER'S PECTORAL SYRUP IN ELAIRS-VILLE.—Please send me another supply of your valu-able "Pectoral Syrup" Almost everybody around us has the cold and are inquiring for "Dr. Keyser's Pectoral Syrup." We have sold sixteen bottles last week, and are now catherly cur. Mr. A. Alter and Mr. P. Mahory, both of Blainville, Fa., tell us they would not be without it in their families. In fact, all who use it once want it await. Yours, respectable.

ANOTHER NEW CERTIFICATE—DR. ALTERA & PROTORAL SYRUP.—I had been troubled with acough and cold for everal weeks—so bad was it that I could not sleep. I had the advice and prescriptions from three of the best physicians in the city, whom I could name, but do not do so. I finally procured a bottle of your Pestoral Syrup, which cured me entirely. Signed.

Byrup, which cured me entirely. Signed.

"STOP THAT COUGHING."—'How can I do it?" "Go to Keyrer's an Wood street and get a bottle of his Cough Pectoral, and if that don't cure you, your case must be desperate indeed." This is a specimen of the colloquy one bears almost every day in cold catching periods of the year. And we can, from actual experiment, cheerfully concurs in the adviser's admonition as above, for we have tried the "Pectoral." in a most stabborn case, with entire success. Near two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, mulish, unsublable coughs we ever experienced slace our adventuent in the mundate sphere. We complete alendity and laboriously for one whole week, in hopes of thring 45 out, but it was no go. In fact it seemed rather to have improved by practice, find to have acquired strongth, potency and distressibility by the operation. In this stage of the siege, we con find our way to Keyser's, 140 Wood 81.—procured a fifty tent bottle of the "Pectoral;" took it according to directions, and in forty-eight hours we were measter of the field, the enemy having unconditionally surrendered, after a brief but nucqual conflict with so formidable an adversary as Keyser's famous "Cough Pectoral."—Drouwswille Gispper, Dep. 14, 1859.

Remodes are carefully prepared under the direct ion and inspection of Prof. HUMPHREYS, in order that great and long realised want of the public, remodes for all the more common and simple all-

ments of the ments of the American will show that a wast majority of disease from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarriem, a pain in the side, or a headache, or hourseness, at first easily curred and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fall to arrest.

Herein these remedies supply a great public want. Being on hand, slimple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, and hence
